

## **DIGITAL CITIZENSHIP STUDENT RESPONSIBLE USE AGREEMENT**

Please read and discuss this agreement with your child and help them understand their role in being digitally safe and responsible. We strongly encourage that you regularly revisit and check your child's understanding and experiences navigating the online world.

**I understand that I need to uphold the school value of RESPONSIBILITY when online. This means:**

- I use digital technology tools such as ipads for learning.
- I know that the school has a filter to keep us safe, but if I find anything unsafe or inappropriate, I will turn off the screen and report it to a teacher immediately.
- I realise that if I make a decision to access material that is offensive, dangerous, inappropriate for school or illegal, my parents will be told and this agreement ended.
- I may only use a digital tool/device when permission is given by a teacher. Devices will not be used before school, during morning tea or lunch breaks unless specified by my teacher.
- I may only bring a device to school from home, if my parents have filled out a BYOD [Bring your own device] form. Devices include smart watches.
- I must immediately report to a teacher any misuse of digital devices.
- I know that what I create or post online has a digital footprint that can be found and seen by others now and in my future.
- I use apps that are age appropriate and rated safe for my age.

**I understand that I need to uphold the school value of RESPECT. This means:**

- I add references, which means I say where I got the information for my work from. This is to meet any copyright laws.
- I know that entering or accessing any other student's account or personal information is illegal. I always respect other people's property in the online and virtual world.
- When I use any digital technology tool, including Seesaw, to display, publish or share my work, I will only record things related to my learning that I would be happy for my parents and teachers to read.

Please sign below to acknowledge that you have read this agreement with your child and assisted them to understand the concepts outlined, and that your child also understands this agreement.
